

Foreign Language Training Programme

Sardardham is pleased to introduce a specially designed **Foreign Language Training Programme** for students who wish to develop international language skills and prepare themselves for higher education, global careers, business, travel and international opportunities. In today's interconnected world, knowing an additional language is more than just a skill — it is an advantage that can open doors to new cultures, people, education and career opportunities. Through this programme, students will receive **structured, in-person training from qualified language trainers**, starting from the absolute beginner level.

About The Programme

The Sardardham Foreign Language Training Programme is designed for students who are interested in learning a foreign language from the very beginning.

The programme will initially offer:

- **Spanish Language (Level: Absolute Beginner – A1.1)**
- **Mandarin Chinese (Level: Absolute Beginner – A1.1)**

Students do not need any prior knowledge of Spanish or Mandarin to join the programme.

The course focuses on developing practical language skills through classroom learning, conversation practice, activities and regular interaction with trainers.

Why Learn A Foreign Language?

Learning a foreign language can give students an additional advantage in their academic and professional journey.

Key Benefits

- **Global Exposure**
Understand and communicate with people from different countries and cultures.
- **Higher Education Opportunities**
A foreign language can be a valuable additional skill for students planning international studies.
- **Career Advantage**
Multilingual candidates can have an advantage in sectors such as international business, IT, tourism, hospitality, education, customer service and global organisations.
- **Better Communication**
Develop confidence in communicating with people from different linguistic backgrounds.
- **Travel & International Interaction**
Make travel and interaction in Spanish- or Mandarin-speaking environments easier and more meaningful.
- **Personal Development**
learning another language improves communication, listening, memory and cultural understanding.

Languages Offered

Spanish Language – A1.1

Spanish is one of the world's most widely spoken languages and is used across Europe, Latin America and many international communities. At the beginner level, students will gradually learn to:

- Understand basic Spanish words and expressions
- Introduce themselves
- Greet and interact with others
- Ask and answer simple questions
- Talk about family, education and daily life
- Understand basic numbers, dates and time
- Develop basic vocabulary
- Form simple sentences
- Participate in basic conversations
- Understand essential Spanish pronunciation

Mandarin Chinese – A1.1

Mandarin Chinese is one of the world's most widely spoken languages and is an important language for international business, technology, education and global communication.

The beginner programme introduces students to the fundamentals of Mandarin in a structured and practical way.

Students will gradually learn to:

- Understand basic Mandarin expressions
- Introduce themselves
- Use common greetings
- Develop basic vocabulary
- Understand Mandarin pronunciation
- Learn the basics of **Pinyin**
- Understand the four basic tones
- Form simple sentences
- Ask and answer basic questions
- Participate in simple conversations

Course Level

Absolute Beginner – A1.1

This programme is specially designed for students who are starting the language for the first time.

No previous knowledge of Spanish or Mandarin is required.

The objective is to build a strong foundation so that students can understand and use basic language in everyday situations.

Course Structure

Particular	Details
Mode	Offline / In-person
Languages	Spanish & Mandarin Chinese
Level	Absolute Beginner – A1.1
Course Duration	80 Hours per Language
Classes	Approximately 6 Hours per Week
Batch Size	30 Students
Training	Classroom-based interactive learning
Trainers	Qualified Language Trainers

Particular	Details
Location	Sardardham, Ahmedabad

Who Can Join?

The programme is primarily designed for **students and young learners who wish to develop an additional global skill.**

It is suitable for students who:

- Want to learn a foreign language from scratch
- Are interested in international education
- Are planning to study or work abroad
- Want to develop their communication skills
- Are interested in international business and careers
- Want to add a valuable skill to their academic profile
- Have an interest in different cultures and languages
- **No prior language knowledge is required.**

Batch Size

- To ensure effective classroom interaction and individual participation:
- **Maximum Students: 30**
- Limited seats will be available in each batch.
- Students will be admitted subject to availability of seats.

Class Schedule

- Each language course will consist of: **80 Hours of Training**
- Approximately: **6 Hours per Week**
- The detailed class timetable, days and timings will be communicated to registered students before commencement of the batch.
- Students are expected to attend classes regularly and participate actively in classroom activities.

Course Completion

Students who successfully complete the prescribed training programme will be eligible for a **Course Completion Certificate**, subject to the applicable attendance and programme requirements.

The certificate will recognise the student's completion of the respective beginner-level language training programme.

Note: Completion of this course does not by itself represent professional fluency or advanced proficiency. It provides a structured foundation at the A1.1 beginner level.

What Will Students Be Able To Do?

By the end of the programme, students will have developed a foundation in the selected language and should be able to handle basic communication situations appropriate to the beginner level.

Students will work towards being able to:

- Introduce themselves
- Greet people appropriately
- Understand common words and expressions
- Ask and answer simple questions
- Talk about themselves and their family
- Discuss basic everyday topics
- Understand basic numbers, dates and time
- Use simple sentences
- Participate in basic conversations
- Recognize and use essential vocabulary
- Develop basic listening and speaking confidence

Spanish Or Mandarin – Which One Should I Choose?

Both languages offer valuable opportunities. The choice depends on the student's interests and future plans.

Choose Spanish if you are interested in:

- European and Latin American culture
- International travel
- Global communication
- Tourism and hospitality
- International education
- Business and customer-facing careers

Choose Mandarin if you are interested in:

- China and East Asian culture
- International business
- Trade and commerce
- Technology and manufacturing
- Global markets
- International education and careers

Not sure?

Choose the language that interests you most. **Interest and consistency are the two biggest factors in successfully learning a new language.**

Why Sardardham?

Sardardham is committed to creating opportunities that help students develop skills, confidence and a global outlook.

The Foreign Language Training Programme is another step towards providing students with access to **new-age skills and international opportunities.**

Through this initiative, Sardardham aims to encourage students to:

Learn → Practise → Communicate → Grow → Connect with the World

Student Responsibilities

To gain maximum benefit from the programme, students are expected to:

- Attend classes regularly
- Be punctual
- Participate actively in classroom activities
- Complete assigned practice work
- Practise the language outside the classroom
- Respect trainers and fellow students
- Follow Sardardham's programme guidelines

Regular practice is essential for language learning.

Important Information

- Admission will be subject to availability of seats.
- Each batch will have a maximum of 30 students.
- The programme consists of 80 hours of training per language.
- Classes will be conducted offline at Sardardham, Ahmedabad.
- Students should maintain regular attendance.
- The detailed timetable will be communicated before commencement.
- Course material/learning resources, if applicable, will be communicated separately.
- The course is designed for absolute beginners at A1.1 level.
- Students are encouraged to practise regularly outside classroom hours.
- The certificate will be issued subject to fulfilment of the prescribed programme requirements.
- Sardardham reserves the right to make reasonable changes to the schedule, batch allocation or programme arrangements when required.

Course Fee

Spanish Language – A1.1

Course Fee: ₹ 15000 + GST / applicable taxes

Mandarin Chinese – A1.1

Course Fee: ₹ 15000 + GST / applicable taxes

The final student fee and payment schedule will be communicated by Sardardham at the time of registration.

English Language & Employability Enhancement Programme

Ai-Powered Career Programme

The world of work is changing rapidly.

Artificial Intelligence, automation, cloud technologies, digital business and cyber security are transforming the way companies work and hire.

To succeed in this changing environment, students need more than a traditional degree. They need **practical skills, industry exposure, projects, confidence and career readiness**.

Sardardham, in association with **TOPS Technologies**, brings three career-focused programmes designed to help students develop practical skills for the emerging AI-driven economy.

- **Module 01 | AI Engineer**
- **Module 02 | AI Cyber Security & Networking**
- **Module 03 | AI Digital Marketer & Ecommerce Specialist**

Why This Programme Is Different

This is not designed as a traditional classroom course.

The programme focuses on creating **industry-ready professionals** through a combination of technical learning, practical exposure and career preparation.

Every student will experience:

- AI-first curriculum
- Classroom learning
- Practical laboratory sessions
- Real industry projects
- Hackathons & innovation challenges
- Portfolio development
- Internship opportunities/support
- Resume building
- Mock interviews
- Soft skills & communication
- Critical thinking
- TOPS JobFest participation
- Placement assistance through TOPS employer network

Fees	₹ 90000 + GST / applicable taxes / Per Students

Module 01 | AI Engineer

The programme is designed to help students develop the skills required to build **AI-powered software applications and intelligent systems** using modern programming, cloud technologies and Generative AI.

What Will You Learn?

Programming & Software Development

- Programming Foundations
- Python
- Full Stack Development
- Databases
- APIs

Cloud & Modern Technologies

- Cloud Deployment

Artificial Intelligence

- Machine Learning
- Generative AI
- AI Agents
- Prompt Engineering

Practical Learning

- Real AI Projects

Ai Engineer — Learning Journey

Foundation: Programming Fundamentals

↓

Development: Python + Full Stack Development

↓

Application Development: Databases + APIs

↓

Cloud: Cloud Deployment

↓

Ai: Machine Learning + Generative AI

↓

Advanced Ai: AI Agents + Prompt Engineering

↓

Project: Real AI Projects

↓

Career: Portfolio + Resume + Mock Interviews + JobFest

Career Opportunities

After developing the relevant skills, students can explore roles such as:

- **AI Engineer**
- **Software Engineer**
- **Full Stack Developer**
- **Python Developer**
- **AI Application Developer**

Module 02 | AI Cyber Security & Networking

This programme focuses on developing skills to **build, manage and secure enterprise IT infrastructure** using networking, cloud and AI-powered cyber security tools.

What Will You Learn?

Computer & Networking

- Computer Hardware – Networking - Cisco Technologies

Operating Systems

- Linux Administration - Windows Administration

Cloud & Infrastructure

- Cloud Computing - AWS Fundamentals - DevOps

Cyber security

- Ethical Hacking - Cyber Security - AI Security Operations

Practical Learning

- Infrastructure Projects

AI Cyber Security & Networking - Learning Journey

Foundation: Computer Hardware

↓

Networking: Networking + Cisco Technologies

↓

System Administration: Linux + Windows

↓

Cloud: Cloud Computing + AWS Fundamentals

↓

Devops: Dev Ops Fundamentals

↓

Security: Ethical Hacking + Cyber Security

↓

AI Security: AI Security Operations

↓

Project: Infrastructure Projects

↓

Career: Resume + Interview + JobFest + Placement Assistance

Career Opportunities

Students can explore career opportunities such as:

- Network Engineer
- Cloud Engineer
- Cyber Security Analyst
- SOC Analyst
- Infrastructure Engineer

Module 03

AI Digital Marketer & Ecommerce Specialist

This programme focuses on using **AI, digital marketing, advertising, automation and ecommerce** to build, grow and scale digital businesses.

What Will You Learn?

Marketing Fundamentals

- Marketing Fundamentals - Digital Marketing

Digital Growth

- SEO - Social Media Marketing - Performance Marketing

Advertising

- Meta Ads - Google Ads

AI-Powered Marketing

- Content Creation using AI - Marketing Automation - AI Productivity Tools

Business & Ecommerce

- CRM – Ecommerce - Analytics

Ai Digital Marketing & Ecommerce - Learning Journey

Foundation: Marketing Fundamentals

Digital Marketing: Digital Marketing + SEO

Social & Performance: Social Media + Performance Marketing

Advertising: Meta Ads + Google Ads

AI: AI Content Creation + AI Productivity Tools

Automation: Marketing Automation + CRM

Ecommerce: Ecommerce + Analytics

Career: Portfolio + Resume + Mock Interviews + Job Fest

Career Opportunities

Students can explore roles such as:

- **Digital Marketing Executive**
- **Performance Marketer**
- **Ecommerce Manager**
- **Marketing Automation Executive**
- **AI Marketing Specialist**
